quilltap

NEW PRODUCT DIRECTION

# Know what to market next.

Quilltap becomes the marketing intelligence and execution system for founder-led businesses.

Discover > Decide > Create > Publish > Learn

**From random content to a repeatable growth system.**

# Do not sell another post generator.

Sell clarity, execution, and a system that learns what works for the business.

TODAY

## Generate a post + schedule it

- Easy to replace with ChatGPT and manual posting
- Competes mostly on output quality and price

**Low switching cost**

NEW QUILLTAP

## Decide what to market + execute + learn

- Uses the business, audience, and real performance data
- Recommends the next action and completes the work

**The system gets smarter over time**

# Six connected capabilities.

Each feature moves the user from uncertainty to a measurable marketing action.

### Business Brain

Learns the offer, audience, voice, claims, competitors, and business goals.

### Strategy Engine

Suggests what to market, what to avoid, why it matters, and how success will be measured.

### Marketing Copilot

A chat interface that can inspect data, change the plan, and create real work inside Quilltap.

### Campaign Builder

Turns one approved opportunity into a coordinated calendar of posts, articles, and briefs.

### SEO Content Loop

Finds useful search topics, creates briefs, and repurposes articles into social campaigns.

### Learning Engine

Connects results to recommendations: stop, continue, improve, or test something new.

# The complete user flow.

A guided path from first login to the next data-backed marketing decision.

**01 Login**
Create or enter a workspace

**02 Business setup**
Website, offer, audience, voice

**03 Choose a goal**
Leads, authority, traffic, launch

**04 Connect data**
Social, website, analytics

**05 See opportunities**
Ranked ideas with evidence

then continue

**06 Discuss in chat**
Question, refine, approve

**07 Build campaign**
Channels, formats, calendar

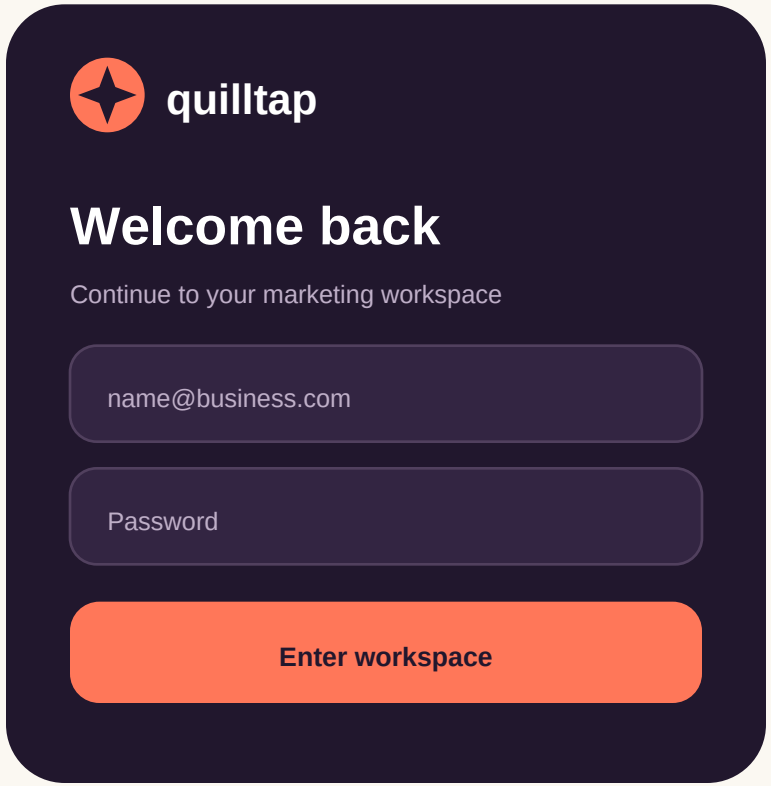
**08 Create and review**
Draft, edit, approve

**09 Publish**
Schedule and distribute

**10 Learn and repeat**
Results become next actions

# Teach Quilltap the business.

The first session should create useful output in minutes, not feel like a long configuration form.



**01** **Scan the business**

Enter a website or describe the offer.

**02** **Confirm the customer**

Who buys, what hurts, and why they choose you.

**03** **Select the goal**

Leads, awareness, traffic, launch, or retention.

**04** **Connect signals**

Social accounts first; analytics and search next.

OUTPUT

**Business Brain**

A living profile that grounds every recommendation and campaign.

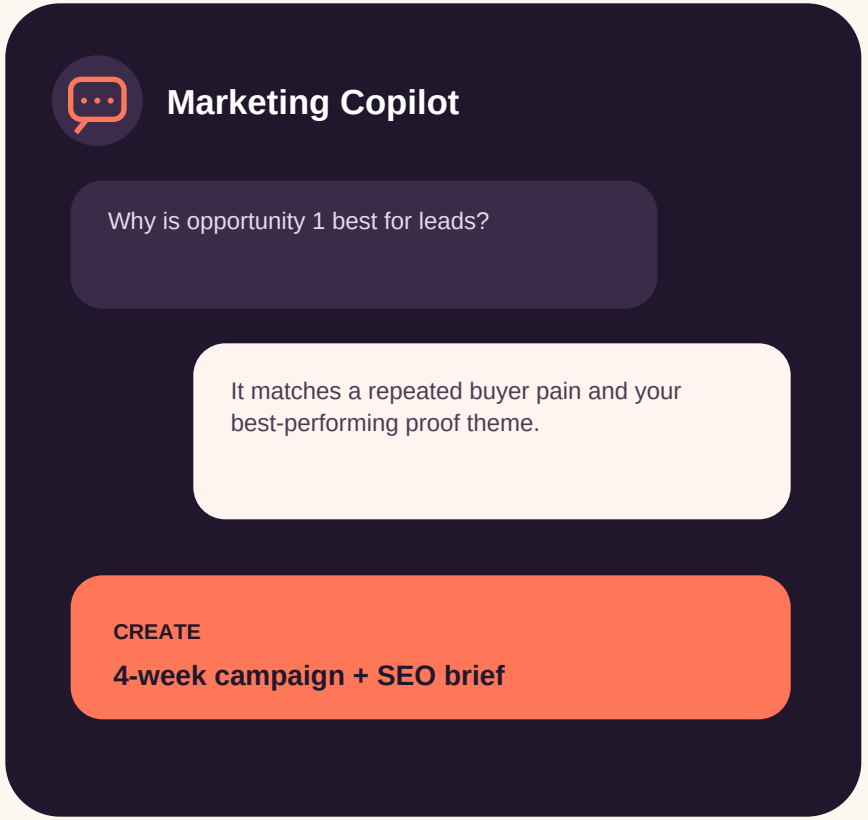
# Turn evidence into a campaign.

Quilltap recommends. The user asks questions. Together they choose and execute a direction.

## Recommended opportunities

THIS WEEK

| | | |
|---|---|---|
| 01 | **Explain the hidden cost of manual reporting**<br>High buyer relevance | 88 |
| 02 | **Turn the pricing objection into a proof campaign**<br>Strong sales signal | 81 |
| 03 | **Build an SEO cluster around reporting automation**<br>Search opportunity | 73 |



# Publish, measure, learn, repeat.

The workflow ends with a recommendation - not a chart the user has to interpret alone.

### Review

Edit copy and visuals. Approval locks the exact version.

>

### Publish

Schedule the campaign across the selected channels.

>

### Measure

Track attention, intent, traffic, and conversions.

>

### Next action

Keep, stop, improve, or launch the next test.

WEEKLY DECISION

**Double down on practical proof. Stop generic inspiration posts.**

REVIEW IN 7 DAYS

# ChatGPT creates content.

# Quilltap runs the marketing loop.

It remembers the business, recommends the next move, executes the campaign, and learns from the result.

### Clarity

Know what to market and why.

### Action

Turn an idea into a complete campaign.

### Memory

Keep strategy, evidence, and brand knowledge together.

### Learning

Use every result to improve the next decision.

**POSITIONING** **Know what to market next - and execute it with confidence.**
